EDUCATION

Jaypee Institute of Information Technology

Bachelor of Technology in Computer Science, CGPA: 7.8/10

Noida, UP

July 2024 – June 2028

Nirmala Convent Sr. Sec. School

Senior Secondary Education (Class XII), Percentage: 94.6%

Haldwani, Uttarakhand

2024

EXPERIENCE

Vocational Trainee

Bharat Sanchar Nigam Limited (BSNL)

June 2026 – July 2026

Haldwani, Uttarakhand

- Gained exposure to network infrastructure, operational workflows, and service delivery processes.
- Observed system monitoring, fault management, and maintenance practices in a large-scale communication network.
- Studied networking equipment, data transmission systems, and their role in ensuring reliable services.

PROJECTS

Sepsis Early Detection & Monitoring System

GitHub

- Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit
- Built an end-to-end machine learning system in a team of 3 members to predict sepsis risk in ICU patients using physiological time-series data.
- Performed feature engineering and trained a Random Forest model achieving 95.75% accuracy, 75.68% recall, and 0.963 ROC-AUC.
- Developed an interactive Streamlit dashboard for patient monitoring, risk prediction, and vital-sign visualization.

AI Resume Analyzer & ATS Checker

GitHub

- Tech Stack:** Python, Streamlit, Pandas, Scikit-learn, spaCy, Gemini API
- Developing an AI-powered resume analysis platform that extracts resume content and evaluates ATS compatibility for role-specific applications.
- Implemented skill extraction, keyword matching, and job-description similarity analysis using NLP techniques.
- Integrating Gemini API to generate personalized feedback, improvement suggestions, and recruiter-style evaluations.
- Building an interactive dashboard supporting PDF uploads, ATS scoring, skill-gap analysis, and downloadable reports.

ACHIEVEMENTS

- Runner-Up, CODEAI Hackathon 2026 (Healthcare AI Track)** – Secured 2nd place as part of a 3-member team for developing an AI-powered Sepsis Early Detection & Monitoring System at Jaypee Institute of Information Technology.

TECHNICAL SKILLS

Programming Languages: C++, Python, SQL (MySQL), HTML, CSS

Data Science: NumPy, Pandas, Matplotlib, Scikit-learn

AI/ML: Machine Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Generative AI

Core Computer Science: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs)

Tools & Platforms: Git, GitHub, VS Code, Google Colab, Streamlit

LEADERSHIP & ACTIVITIES

- National Service Scheme (NSS), IIIT (2024–2025)** – Member, Marketing & Management Team; contributed to event planning, promotion, and community outreach initiatives, and participated in a 7-day NSS Special Camp focused on social service and community engagement.
